Want to have a pA A piece of Armenia in your home this holiday season?

Artur, the master carpenter from Voskepar, wanted to say thank you for helping him expand his workshop. He has hand carved 10 wooden reindeer for you to receive from *Tsmer Papik* (Father Winter) this year!

Each deer cost \$9 to make. We're selling them for \$39. The remaining funds will go directly to our LeverEdge Program, helping Artur and 11 other entrepreneurs in Voskepar and neighboring Sarigyugh start or expand their small businesses.

Give people like Artur the gift of employment this year. Don't wait—these special ornaments from Armenia will be gone faster than *Gaghant Baba* (Santa Claus) squeezes his way down your chimney!
