Tourisme musical : L'art uruguayen avec Gabriel Markarian

A Montevideo en Uruguay

Gabriel Markarian, releases this album full of memorable melodies, feelings, and rich textures. Be on the past, the present, and the future at the same time, through the energy of the crisp electronic elements, combined in this album with the sounds of traditional armenian instruments, like duduk and qanun.

The mixing and balance of electronic and synth sounds, with touches of orchestra, voices and choirs, invite you to discover and connect with a world of crystalline emotions, inspired by the overwhelming beauty and deep connection of the armenian nation, with the Mount Ararat.
