

“Les démocrates sont dévoués à certains principes..” mais pourquoi tous ces “homeless” (SDF) à Los Angeles en Californie , Etat démocrate par excellence ?

Où est le principe d'un toit pour tous ? Dans cet Etat démocrate la Californie , parmi les 7 premières puissances économiques ?

60 000 SDF (homeless) à Los Angeles en Californie .
Où sont les grands principes des démocrates ?

On peut voir tous ces homeless dans la 6ème rue / 6th street de la mégapole de Los Angeles .

Les élections municipales à Glendale en Californie auront lieu le 3 mars 2020

Leonard Manoukian,
Candidate / candidat for Glendale City Council/ à la municipalité
Election:

Tuesday / Mardi, March 3, 2020

Polls open at 7am les bureaux ouvrent à 7h

Dear Fellow Democrat,

By now, you know that I was a Glendale Planning Commissioner for 11 years, and have

served our community in many roles, AYSO coach and Scout leader, to name two. But, as we approach March 3rd, I wanted to share some thoughts about the values that you and I share as [Democrats](#).

I am, and have been, an active member of the California Democratic Party for years. First elected party delegate from the 43rd Assembly District in 2016, I was appointed a delegate by Assembly Member Laura Friedman in 2018. I am also the political director of the Southern California Armenian Democrats.

During this campaign, I sought and received the endorsement of the most important Democratic organizations in our region, county, and city to indicate the principles I stand for:

- Los Angeles County Democratic Party;
- Glendale Democratic Club;
- Southern California Armenian Democrats;
- East Area Progressive Democrats;
- Democrats for Neighborhood Action; and
- Los Angeles County Young Democrats.

As Democrats we are devoted to certain principles: openness and transparency of government, inclusion of all segments of the community in its governance, protecting and improving our physical environment, and protecting the economically vulnerable, to mention a few. During this campaign, I have committed to taking concrete actions in all these areas when on Council. Whether by appointing women and renters to city boards and commissions, advocating for a Sustainability Commission, or calling for a comprehensive plan of affordable housing development, if you elect me, I will foster our shared values and goals.

To be clear, though the upcoming elections are non-partisan, our values are still what guide us as we work to make Glendale become the city we want and deserve.

I am proud of my record of service to you, our city, and our values and will continue to do so when on Council.

I hope that on March 3rd, you will cast one of your three votes for candidate #6, LEONARD MANOUKIAN for Glendale....
