

La compagnie US, SADA Systems, veut établir un Centre Global de Solutions de Technologie

YEREVAN — The US-based SADA Systems tech company is planning to establish a Global Center for Technology Solutions in Yerevan.

The issue was discussed at a meeting between Armenian High-Tech Minister Hakob Arshakyan and SADA Systems founder Hovik Safoian.

SADA Systems, Inc. is a privately-held global leader in providing business and technology consulting services that transform organizations through cloud-based solutions.

The Minister stressed the importance of establishing such a center in Armenia and the need for clear mechanisms for the inflow of talent, noting that the ministry's global programs and emerging infrastructure are aimed at this important goal.
