MEDICAL SUPPLIES  
AND SUPPORT

Dear 1A Family,

Unfortunately, the humanitarian crisis in Artsakh is far from over, but your readiness to step up and give inspires and motivates us to continue our work.

For that, we thank you once again.

Yesterday we had a quick call with our friends at the All Armenia Fund. As a reminder, 100% of all donations we've received since we began fundraising last week are going to the Fund. We're keeping zero overhead fees from our fundraisers supporting the people of Artsakh.

All Armenia Fund informed us that at the moment, the most urgent needs of the civilian population in Artsakh are transportation for civilians and medical personnel, fuel, solar energy batteries, and medical supplies. Funds being donated to All Armenia are currently being used to acquire these aid resources.

Keep reading after the fold for our second donation confirmation to the All Armenia Fund, and for another opportunity to double your donation to Artsakh.
